

Face painting

International Culture Week
Afnorth International School
13 February – 17 February

Dear parents, dear colleagues

For a number of years now the face painting project has been part of the Culture Week celebrations. Every year this activity becomes more popular and this year with the combination Culture week /Carnival holidays, the occasion to continue this event is perfect.

The committee is always careful with regards to the type of paint which is used. We always look for a tested face paint which has been cleared as safe and non allergic. However experience has also taught us that one can never be one hundred percent certain as many personal circumstances may influence a possible reaction.

The paint we intend to use this year is water based and is being distributed by a company named “ Jofrika Cosmetics”. The product is called “ Aqua Easy Creativ”, and information regarding this product can be found on the web.

If you as a parent or teacher have any doubt as to whether a child should have a face paint job or not, please inform the committee so that we can pro-act and prevent any unwanted situation.

We appreciate you cooperation.
