

Interview: Deputy Heads (GREENS)

Anna Lena Paczinski

Svenja Kretschmar

„Political knowledge is very important nowadays. My expectation and wish for this weekend is to help people getting interested in politics again“
— Anna Lena

„Our [Anna Lena/Svenja] friendship has evolved during the last MEP in 2010. We got to know each other very personally for the first time and got real best friends“
— Svenja

Today I got to know two very interesting and excited MEP attendees, Anna Lena and Svenja. Being the second time around here, they serve as the two deputy heads of the Green party.

They took the step from being regular delegates to a core member of the organization of a important European party, because they wanted to get more involved into the action process of MEP

As many delegates the two girls participate in MEP because they see an opportunity of getting more individual and serious in public places.

„The interaction with our party members is very easy, much easier than I thought. At the beginning it was hard, but now I like it very much.“

— Anna Lena

„The delegates do great individual work, they do not need much personal help. Up to now, communication is very easy there are no no problems to reach them and help“

— Svenja

But their biggest wish for everyone:

**Find new friends, have fun like we do.
And get yourself involved,
otherwise you would regret it afterwards.**
